A CARD.

To all who are suffering from the errors and indis cretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, PREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the REV. JOSEPH T. INMAN, Station D, New York City.

A GOOD PLAN.

As "an ounce of prevention is worth a pound cure," it is a good plan to buy a bottle of KRESS PE-VER TONIC, and during the season when Chills and Fever are prevalent, take a small dose daily, thus preventing the possibility of contracting suy Malarlal disease. If you have the Ague, buy a bottle and be cured promptly and surely. The money refunded it does not cure. It contains no Quinine or Poiso and is pleasant to take. 21auglm.

THE FAIR.-Mext Tuesday, the Fair begins. This has been a good agricultural year for Doniphan County, but a had one for fruit. While the fruit display will not be so large as formerly, yet it will, in ents, be creditable. But in the staple products of the farm, there is no reason why it has also been favorable for stock. There has been but little disease, and the increase in quantity and quality large. Whether there will be any formal address at the opening or not, we have not learned. We think the determination, this year, is to avoid all useless and expensive forms, and complete the work of putting the Association on a sound financial basis so that, in future years, they can afford to offer a

larger number and more liberal premiums. One of the attractions will be the Soldiers' Rem on. Most of the soldiers in the County will attend at least one day. What their programme will be, we have not yet learned; but it may be handed in

WITNESS' FEES .- The County Attorney informs u hat the witnesses in a State case who could not receive fees, were for the defence; and that the law forbids the County paying witnesses for the defence in criminal cases, or for the plaintiff when there is failure to convict; that the defendant must pay his own witnesses, if he is able, or if not, they must lose it; and that in case of failure to convict, the prosecuting witness must pay costs. We were aware of this when we wrote our fast week's article. We do not dispute the fact, but the justice of it. In civi ases, the witness has a right to demand his fees in advance, and refuse to attend, if they are not paid. Why not in criminal cases? The reply may be, tha the law guarantees a man a fair trial, and that he could not have this, if witnesses were not compelled to attend. Then, if the State compels them, why should not the State pay them! Has the State a right to compel a citizen to give his services for nothing? The law guarantees a man a fair trial to col lect a debt due him, but does not compel a witness to attend without payment of his fees in advance. It ust dues, is of less consequence than a horse thief or a murderer, who is endeavoring to escape punishent for his crimes. The Sheriff and Clerk are paid by the County for their services in criminal cases, whether there is a conviction or not. Why is a pubnent for their services is guaranteed, when the indi ridnal must look out for himself! Is a Clerk better entitled to nav for sitting down and writing a sub his expenses! What we contend for is, that when ever the State compels a person to give his time and service, the State should guarantee his pay. Bucklen's Arnica Salve.

Geo. Orey, while working in Cook & Miller's lumber yard, had his leg broken by a large pile of lumber talling upon it. It was broken just above the ankle. Dr. McCormick is attending, and hopes to have him up in four or five weeks.

Frank Case has moved into his new house, up to ward the Method ist Church. It is a nice, roomy huilding, and will make a pretty home. If some of our enterprising citizens would follow Mr. Case's example they would derive a good income from rents. A good house rents high, and is never long vacant. Many buildings are going up, throughout the country. Our wide-awake lumber men, Cook & Miller, are doing a good business.

The Severance House has changed hands. Mr. and Mrs. Steele leave for their farm, followed by the hest wishes of their many friends. Mr. & Mrs. J. K. The proceedings were very carnest, and an interest was manifiested which is likely to make the Club a success.

Politics are not very much discussed on the streets yet, but there seems to be a stirring of the deep waters, which may start things moving.

The storm of last week was rather severe around here. About a mile and half south-west, it blew down trees, hay and straw stacks. The end of Mr. Rippey's house was demolished, but not as seriously as was first thought. MARRIED WITH A GRAB-HOOK .- A short time ago. a gentleman from Seneca was telling in Troy, that when waiting for the cars at Seneca, that day, he met a young man who was connected with the same train. As the gentleman got on the rear car, he saw the young man hustle in great haste for the car next forward, and an old gentleman after him. Looking out, he saw the old man on the platform, and the young man on the car steps, engaged in an animated discussion. A by-stander informed the entleman that the young man had been fooling round the old man's daughter a little too promisenously, under promise of marriage, and was now trying to skip the country, and the old man was ar. guing the case with him. As the train started, there was a commotion in that direction, and when the ear car passed the spot where the next one forward od, the gentleman looked out, and saw the old man have the young man down on the platform,

Count another "boom" for Severance. Mr. B. F. Harpster is determined to make his bank one of the safest and soundest in this part of the State. This last week he has had a Sergeant's Time Lock, with Sunday attachment, put on the large safe in the vault. On closing the bank for the day, Mr. H. winds up the Time Lock, so that it can be opened some time the following day. At that time it can be opened, but not till then. Harpster can rear and tear around all he pleases, but not until the appointed time will it consent to be opened. The works are made as carefully and of as good material as our finest chromometers. The cost is about five hundred dollars. A man who will spend that amount to make it safer for his depositors, deserves generous patronage. Jordan Creek and Vicinity.

We are thankful to Omnipotence for a rain which showered down on us last Thursday, and put the fields in a better condition to be prepared for the fall sowing of grain.

Mike Langan informs us that he has 668 bushels of wheat, which is the amount of his late crop, just threshed. Mike has bought a new grain drill, and has commenced sowing for another crop.

A large number of the farmers have not threshed their grain yet, but are putting it off until the rush of their other fall work is over.

Since the late rains, the people are having better prespects for late crops.

We had the pleasure of meeting, last Saturday, Mr. James Naylor, who has been employed to teach the Pleasant Ridge school, the coming six months' term, commencing Oct.

Mr. Thomas L. Crotshin is at present laboring on the farm of Joseph A. Symms, Mr. Symms having hired him for three months; after which, we understand, he will return to his home in Virginia.

Mr. McCrum is having a large herd of his cattle taken care of in this vicinity.

Frank Asheraft is attending school in Atchison.

Hillsman Jarrett, a pioneer settler and respected citizen of this County, died last Tuesday morning, the 9th, at the residence of Robert Ladwig, as we understand from the effects of typhoid fever.

The noted "Shakspeare," of Marion Township, was in this neighborhood to day, but returned home again, taking with him Mrs. Carrie Brown, who will visit friends in that locality.

The Oakland school has commenced, but we have not learned who is the teacher, nor the length of the term.
